

TESTIMONIALS

"I wanted to write and let you know how much I love your product. I was born with ptosis of the left eye, and because of many childhood surgeries to open the eyelid, am unable to close it completely when I sleep. I also suffered some damage to the cornea, due to an injury when I was 24. I have had nighttime dry eye issues with my left eye since I was 12. For many years, I have made a nighttime patch by cutting rectangles out of freezer bags, and put Transpore tape all around and put it on my eye at night. I also use some form of "goop" in my eye - lately Genteal nighttime. This solution worked reasonably well and was relatively inexpensive. The main problem was the adhesive which remained on my face after the patch was removed each morning. I would remove the adhesive with Uni-Solve adhesive remover, which I purchased at a medical supply company. As I have gotten older (I am 45), I have worried about the effect of the tape on my skin due to the pulling. My skin also tends to break out where the tape is located. Additionally, over the last couple of years, the solution had not been working as well as it used to - my eye was still irritated and dry at times, despite the patching.

A couple of weeks ago, I did a google search - dry eye. I came upon Tranquileyes and after further research I decided to place an order. I have to say that this product has been a life changing experience for me! Not only does it work, but my left eye has never felt better! I still use some goop at night, but the moisture from the Tranquileyes seems to make it feel normal, and the moisture lasts throughout the day. I have had no problems sleeping with the mask over my eyes - it is very comfortable. It is wonderful not to have to remove adhesive from my face every morning.

I would like to suggest that you make a mask that covers one eye for those of us who don't need it for both. I am considering ordering another mask, and having my husband modify it, so that just one eye is covered, but others might also appreciate such a product.

I have never felt compelled to write a company to thank them for a product - but your product is so wonderful and has so improved the quality of my life that I had to let you know."

"To Whom It May Concern:

I am writing to praise your company for the invention and promotion of your Chronic Dry Eye kit for Sjogren's syndrome patients. I purchased my first kit last year after reading about your product in the "Moisture Seekers" magazine. Immediate relief was my reward the first night using the eye mask.

Later in the year I purchased a second kit, this one for travel, and then a third to give to my sister suffering from chronic dry eyes. We both are now proponents of your products.

The story gets even better. This past Wednesday I met with a Sjogren's research ophthalmologist at the National Institute for Health in Bethesda, MD as part of a study program I've been accepted into. With all the eye inflammations I've had over the years, due to Sjogren's syndrome, and the results of the testing done this past week it was expected that my cornea would be severely impacted. When all the tests were done and the final look at my eyes complete the doctor asked "what are you doing to care for your eyes? I can't get over how healthy your cornea is." I then went on to report my daily use of eye drops and the eye mask from your company to protect my eyes while sleeping.

Hurray for the Chronic Dry Eye kit. Using your product has helped protect my eyes from the normal progression of damage due to Sjogren's. You have a lifelong customer. Keep up the good work.

Warmest Regards," -Susan, Osprey, FL

"I began to suffer with extremely dry eyes many years after reconstructive eyelid surgery, and another surgery would be necessary if an eye hydrating solution could not be found. I was fortunate to have found Tranquil Eyes Deluxe Eye Hydrating Therapy. Now I have thoroughly hydrated eyes, no red spots, and I enjoy a deep full night of sleep while wearing the goggles as a night mask. Best of all, this thoughtfully designed product has saved me from additional surgery, and goes far beyond beautifying. "

"Discovering Eyeeco literally gave me my life back! My tear production level was reduced by 80% when I was only 19! I lived in constant pain. My eyes were so dry that every time I blinked my eye lids would scratch my cornea, since there was no tear fluid to protect my eyes. I had tried everything. Punctual occlusion, Moisture chamber glasses, putting in eye drops every 1/2 hour (that even had to be made up for me) and a trysorrhaphy (eye lids stitched 2/3 permanently shut). Nothing could stop the pain.

Now more than 20 years later, and missing on so many things in my life, due to the pain,(and I am not a wimp) I have had many other things in my life that caused pain, such as broken limbs, multiple surgeries, delivering my children, but nothing brought my life to a screeching halt as my eye pain. I have had to miss many things, or could not pay attention to the event, such as my children's activities, outings with my friends, social events with my husband (if I did try to go, because I really wanted to see my children in their different activities) I had so much pain that all ended up doing was trying to concentrate on not concentrating on the pain.

Now, thanks to using the tranquil eyes, every time I sleep, including naps in the afternoon. If my eyes are bothering me more than average than I will put eye ointment in them and use the thermo eyes. Thanks to these products, my eye pain has been reduced by about 85%, I can now enjoy outings with my friends, go out with my husband in the evening, and go to my children's events. I am so thankful that I found out about this great product!!!!

-Lauri, San Diego, CA

I have Sjogren's Syndrome and read about tranquileyes through the Sjogren's organization and decided to try them.

Last night I wore my new tranquileyes for the first time. WOWOWOWOWOWOWOWOWOWOW!!!!!!!!!!!!!!!!!!!!!!!!!!!! Amazing! How wonderful it felt to wake up and NOT have my eyes dry and achy.

Thank you,
Joanne
Chicago, Illinois

"My mother has Sjogren's and suffers from severe dry eyes. I read about your product and decided to buy one for my mother. She takes it with her everywhere! She absolutely loves it! As a matter of fact, whenever she receives a phone call, she now asks the caller to wait a minute, puts down the phone and slips her mask on. Her eyes feel so much better and they are extremely relaxing to wear. She is so excited about your product she bought one for her doctor, my sister and I. Thank you for making such a wonderful product! "

-Sharon in Sacramento, CA

"You completely under sold your product. I purchased tranquileyes to relieve my dry eyes when I travel. Little did I know what a great product it is for getting a good night sleep! Last night I wore them to bed for the first time and to my amazement, had the best night sleep I have had in months! I can't say enough good things about them. Thanks for the z's!"

-Patricia in Denver, CO

"After having LASIK surgery, my eyes are very dry. My doctor suggested I try your product with my artificial tears. I was a bit skeptical at first however after the first couple of days using your product, my eyes started feeling better. I now wear my tranquileyes 30 minutes or so a day and not only do my eyes find a level of relief I can't find using artificial tears alone, my entire body feels better - very relaxing. Thanks!"

-Dave in Madison, MS

"I wanted to let you know that your eye mask is the best yet. Yesterday we installed new florescent lights in our office and were not able to get the solar/sun colored bulbs, our local hardware store ran out and we got about 6 blue ones instead. Within a few minutes my eyes really started to hurt, squinting and just felt really dried out while I was working on the computer (which is what I do all day). I thought of your eye mask which I had tried a few times in the last month. When I went to bed last night I used my mask with warm water and fell right to sleep. Today, my eyes feel wonderful, do I dare say that they feel clean, soft and perfect. My eyes feel as if I had plenty of rest and while I am back in the office today the lights are not bothering me as of yet. I have used herbal (lavender) masks before and they do help me sleep, but they definitely do not help my eyes rejuvenate they way your masks do. Thank you so much for this wonderful creation"

-Naomi in Forestville, CA

"Yesterday I went to my eye doctor. I have sleep apnea and Sjogren's so my eyes are always very, very dry. Because of my condition, I've always had dry spots on my cornea. Yesterday, for the first time, my doctor found NO dry spots on my cornea! The only thing I changed was I had started sleeping in your mask. He said keep doing whatever it is that I'm doing because it is working! Thank you!"

-Mary in Chicago, IL
